

Come and hit the gas at the EXMAR Group in the position of IT Infrastructure Specialist

The EXMAR Group is currently looking for an IT Infrastructure Specialist to reinforce the EXMAR IT team in Antwerp.

Who we are and what we do

The EXMAR Group is an international player in the oil and gas industry. Our core activity includes the transport and transformation of oil and gas (and derivate products) over sea. More than 1400 seafaring crew and 250 shore-based staff daily join forces to provide our clients the best service and offer them innovative solutions. Together we make sure the world is supplied with gas which energizes both them and ourselves!

Your role in the team

To maintain EXMAR's IT infrastructure in the EXMAR offices and on board EXMAR operated or owned assets in order to ensure business continuity without interruption of service.

Your responsibilities and tasks include:

- **Problem solving** including support in case of breakdowns, assistance in resolving application issues, reviewing/adapting/upgrading security measures, restoring data and providing support for software applications on board the floating assets
- **System monitoring** covering follow-up on capacity of various systems, acting proactively (e.g. monitor resources available for servers) and making sure back-ups are available in case needed
- **System upgrades and changes** through performing software upgrades to shore or on board infrastructure, implementing new hard- and software, planning and executing hardware refreshers on board, reviewing requests and advise the business
- **Continuous improvement** covering the review of infrastructure components' configuration and advising the IT Director on continuous improvement initiatives.

Your profile

- Education: Bachelor Electronics and IT engineering
- Minimum 3 years of experience in IT infrastructure support
- Basic knowledge of:
 - Exchange server
- Good knowledge of:
 - Cisco networking
 - Windows server (AD/DNS/DHCP/WSUS/WDS/...)
 - Azure AD + Office 365
 - Cisco Webex Teams + Meetings

- Cisco Hyperflex / VMWare
- Microsoft Office applications
- Programming, scripting and mark-up languages (PowerShell, VBScript,...)
- Ability to remain calm and think clearly when business impacting incidents occur
- Ability to communicate with the business in a clear (non-IT) language
- Ability to understand business needs and advise accordingly

Our offer

At EXMAR you operate a very international, dynamic and, innovative environment. With us each working day looks different. We offer a competitive salary, supplemented with a nice package of fringe benefits. Since we consider personal development and career planning important, additional in-house and external training is supported.

Convinced?

If interested, let us know by sending an email with your CV and a brief motivation letter to hrprojects@exmar.be. We will get back to you to plan a first interview.. Good luck!
