

## Come and hit the gas at the EXMAR Group in the position of Technical Superintendent

The EXMAR Group is currently looking for a Technical Superintendent to reinforce the Exmar Shipmanagement Shipping team in Antwerp.

### Who we are and what we do

The EXMAR Group is an international player in the oil and gas industry. Our core activity includes the transport and transformation of oil and gas (and derivate products) over sea. More than 1400 seafaring crew and 250 shore-based staff daily join forces to provide our clients the best service and offer them innovative solutions. Together we make sure the world is supplied with gas which energizes both them and ourselves!

### Your role in the team

To technically manage and support the assigned assets in order to operate them in a safe, technically reliable and efficient condition so to be compliant with statutory and class requirements, applicable rules and standards set by the industry or the client.

Your responsibilities and tasks include:

- Provide day to day technical assistance to the assets (incl. arrangement of supplies)
- Monitor the assets' technical performance and environmental efficiency;
- Ensure assets are operated in line with industry requirements and technical standards set by the company and owner (incl. executing asset inspections);
- Prepare repair specifications, analyse cost proposals from different yards and coordinate dry-docks as main contact person for all stakeholders;
- Prepare and manage the assets' technical budget;
- Promote the safe and efficient operation of assets by checking that procedures are implemented as per the SMS and proposing technical modifications;
- Act as part of the emergency response team and support/lead root cause investigations and the implementation of corrective actions.

### Your profile

- Master in engineering;
- Experience in a technical project management position is a plus;
- You are able to manage technical projects with the team on board and ashore;
- You are able to look for the safest and most cost efficient/effective solution during emergencies also making sure all stakeholders understand the issue and solution;
- You are able to analyse and anticipate for technical problems taking into account the information from different stakeholders;
- You are flexible to travel overseas;

- Extensive knowledge of project management and complex installations;
- Basic knowledge of the oil & gas industry;
- Fluent in written and spoken English.

### Our offer

At EXMAR you operate a very international, dynamic and, innovative environment. With us each working day looks different. We offer a competitive salary, supplemented with a nice package of fringe benefits. Since we consider personal development and career planning important, additional in-house and external training is supported.

### Convinced?

If interested, let us know by sending an email with your CV and cover letter to [hrprojects@exmar.be](mailto:hrprojects@exmar.be). We will get back to you to plan a first interview.  
Good luck!
