

EXMAR has engaged in a private offering of new shares 07/11/2006

EXMAR NV

EXMAR NV has instructed an investment banker to raise at least 5 % of the outstanding market capitalization through a private placement of shares. The funds will be used to finance new LPG, LNG and Offshore projects.

The company will announce the results of the transaction after closing of the bookbuilding.

The suspension of the EXMAR share has been requested. Trading of the shares will be resumed half an hour after publication of the results of the bookbuilding.

About EXMAR

EXMAR is one of the largest independent operators of gas tankers in the world with a diversified fleet of 49 ships ranging from 150,900m³ LNG carriers down to 12,030 m³ chemical carriers, an FPSO and an accommodation barge.
